

LED LIGHT

PROJECTED SIGNS

SAFETY FIRST: CONSTRUCTION ZONE AHEAD!

THE SPECIFICATIONS

- Shape: Round
- Material: Aluminum, Glass, LED, Plastic
- Finish: Elegant Glass
- Brightness: 8000 Lumen with 80W CREE LEDs
- Remote Control: Easy on/off and mode selection
- Weather Resistant: IP67 rating, perfect for outdoor use

INSTALLATION COSTS

- Initial Cost: **\$298** per unit.
- Maintenance: Minimal, reducing long-term expenses.

WHY ITS NEEDED ?

- Enhances Visibility: Improves construction zone safety, adapting brightness to ambient light conditions.
- Adapts to Environment: Automatically adjusts to sunlight, ensuring optimal visibility at all times.

SAFETY IMPACT

- Accident Reduction: Significantly lowers construction zone accidents.
- Enhanced Night Visibility: Improves sign visibility in low-light conditions.
- Behavioral Influence: Encourages attentive pedestrian behavior.
- Inclusivity: Accessible to diverse populations, including non-native speakers and individuals with disabilities.
